**P**aving Brick manufactured by The Denver Brick Company, meet and/or exceed the requirements for ASTM Designation C-902, the standard specification for pedestrian and light traffic paving brick. Denver Brick pavers are the finest quality available to the architectural and residential design trade. A broad spectrum of colors and sizes are available to satisfy any paver need. When installed in conformance to recommended practice, they can be used in all pedestrian and light duty vehicular traffic areas such as patios, walkways, floors, atriums, sun and solar rooms, gardens and driveways. These pavers provide excellent performance and conform to the severe weather freeze-thaw test requirements set forth in ASTM.

SIZES & SHAPES	THICKNESS	UNITS PER SQUARE FOOT			COLORS AVAILABLE
		WEIGHT Per Brick/lbs.	With 3/8 Joint	W/O Joint (Dry)
